Mandates

- The international conversion fee rate for First Data/Star increased from .8% to 1%.
- Added the mandated Visa Merchandise Returns function for Visa cards.
- Added Box 11, **Mortgage Acquisition Date** and changed the label for Box 2 from **Outstanding Mortgage Principal as of 1/1/2019** to **Outstanding Mortgage Principal** on the IRS Form 1098 per IRS instructions.

Loans

- Added the CAMS-ii System Property, (Back Office > Standard > Parameters) `collections_force_update_checkbox`. The property creates an **Update Balances** check box on the Collections navigation screen. When the Update Balances check box is cleared, it prevents the Collections system from updating the current balance, shares available, and share balance, thus decreasing the time it takes for the screen to appear.

 Credit unions that see the message, There will be a loading lag due to balance calculations, as the Collections navigation screen should benefit from setting this property to Y.

Bugs

The following items have been fixed.

Issue #	Feature/Function	Issue Status and Description
#C2S00013774	IB	For Internet Branching (IB) sites that use random IB IDs, the list of previously used Internet Branching (IB) IDs are now retained, so that they can be reviewed and bypassed when a new IB ID is added. This prevents previous members' information from inadvertently appearing.
#C2S00014131	Safe Deposit Box	Fixed Adding a co-owner to a Safe Deposit Box caused the matching Safe Deposit Box number at the location of the Terminal ID to update.
#C2S00014293	Cash Drawers	Fixed Two teller IDs can log into the same drawer simultaneously if they land on the cash drawer selection screen at the same time.
#C2S00014303	G/L Standard Repeating	Fixed The Source Teller ID that appears in G/L Inquiry is incorrect.
